

Forest School March 2021 Class 3 & 2

Outside at last! Mixed weather for Forest School!

Our theme for Class 3 was Anglo Saxons and for Class 2 was The Stone Age

It's been a while since we have been down to Forest School due to Lockdown , it was a wet day for Class 3 as we got down to the Forest School site. We had the big tarp up for shelter from the weather. As we have been learning about Anglo Saxons, we built a villages complete with a shelter sand a pretend fires. We cooked cheese wraps over the real fire. We stayed at the site for lunch (which we haven't done before); after we had eaten lunch we made throwing stars. The weather got worse so we made our way back to school and finished off by making jewellery from elder twigs.

Class 2 had much milder dryer weather; we talked about what they had learned in class about Stone Age people. Then in small groups we made Stone Age camps with shelters and pretend fires. Once the camps were finished, we 'foraged and hunted' for food (berries, leaves, mammoths, deer and hares). When we had finished hunting and foraging we toasted marshmallows
