

## Forest School May 2021 all classes

Class 1's trip to Forest School was a little eventful with year 2 having to return to school due to a thunder storm. This didn't spoil their fun we just continued our activities in the library. The activities were bug hunting, willow wands and stone stacking. The children found all kinds of creatures during their bug hunts including worms, grubs and slugs, the children were very gentle and created little habitats for the creatures inside the bug collecting pots and carefully returned the creatures back into nature afterwards. Hot vimto and biscuits were the order of the day before returning to the activities.

Class 2 & 3 had glorious weather just marred by one shower in the afternoon. Their activities were bug hunting, stone stacking and making clay tree spirit faces, which looked amazing we even had 2 Mr Ts! We had a child from each class who showed fabulous resilience when creating the stone stacks one managed 9 stones whilst the other stacked 10.
