

## Forest School May 2021 reception

Reception children had a rather wet Forest School session; the children were dressed perfectly for the weather conditions. As they hadn't been down to the forest before we spent lots of time learning the rules and exploring the boundaries. The activities to choose from were bug hunting, making a willow wand and stone stacking. The children sat under the tarp to have their hot vimto and biscuits followed by 'The diary of a spider story'. Eventually the weather cleared up and we had some sunshine before they set off back up to school.
