

Forest School Class 2 & 3 June 19

Class 2 & 3 had their Forest school sessions, the weather was a little miserable but it didn't stop us having great fun. We built mini rafts from twigs and floated them in the big tub. Once the rafts were floating we placed different sized stones on them to see whose raft could carry the biggest load. We also talked about tree spirits and then we each had some clay to make our own tree spirits. There was lots of variety of tree spirits; we even had Donald Trump and Mario. There was also the chance to try out the rope puzzle and building our own giant spider's web

Class 1 June 19

Class 1 had their forest School sessions and it was quite showery but it wasn't too cold. We had a big tarp to work under and another to sit on, so we managed to keep nice and dry. We decorated clay bees and tried out Hapa zome (Japanese flower pounding). We collected some flowers and leaves then placed them inside a calico square and then we gently tapped over the fabric which caused the colour from the plants to pass onto the fabric creating a perfect imprint of the plants. Before coming back to school we had hot chocolate and biscuits and a very quick go on the new slack line.
